# STREAMS

## STANDARD I

July 2020

1st floor, First St Vincent Bank Ltd  
Building, James Street, Kingstown,  
St Vincent and the Grenadines

T: + 357 25 010 487  
E: [support@gostreams.io](mailto:support@gostreams.io)

STRATEGY DESCRIPTION

The Standard I strategy is based on a Trend Following logic and operates through a semi-automated system specifically developed by our Investment Team. The strategy seeks to generate alpha by utilizing a combination of three different approaches ranging from breakout on multi timeframes, to wave analysis and discretionary trading. The diversified approach aims at identifying flexion points and divergences in prices, combined with breakout of relevant levels on the different instruments. Change in market sentiment is utilized as indicator of the market direction and possible shifts of positioning of the main players. Intra-day trading populates the 80% of the total activity, both to consolidate gains and avoid prolonging any losses overnight or during weekends. The strategy, continuously checked and monitored by our managers who intervene promptly in the event of special situations, is applied to a wider range of asset classes and reflects the different lines of diversification and decorrelation which extend from equities indices, commodities and currencies. All trades are characterized by fixed stop losses, according to the volatility of the period.

GENERAL INFORMATION

Minimum Investment	5,000 USD
Max Risk	20%
Performance Fee	30%
Highwater	
Mark	Yes
Legal Structure	Managed Account
Inv. Style	Short term / Breakout / Technical, Fundamental, Volatility trading
